RE-DISTRIBUTION.

WASHINGTON, D. C., July 10.—The new redistribution division of the currency bureau will soon be finished. About seven millions of greenbacks in the seven towns which will be required to meet the redemption feature of the amended currency law has already been received at the treasury. The entire amount is expected, within the next ten days. The forwarding of the amount has had no effect whatever on the market, the five per cent, being, of course, a portion of the reserve heretofore in circulation. The amount received daily is about half a million. In answer to inquiries, it is stated at the treasury that any person may send direct for redemption, in multiples, to the amount of one thousand dollars, the notes of any national bank, Adams express carrying it from the treasury. The cost is the same as that collected from the bank whose note is redeemed. Sums less than the amount named must be sent at the cost of the consigner, to be so collected and remitted by the treasury.

AT ONCE

FRANCE.

PARIS, July 10.—The republican journals yesterday consider that yesterday's address of the assembly demonstrates the weakness of that body, and declare that dissolution is the only remedy for the unsettled political situation. It is probable that several motions for a dissolution of the assembly will be introduced at to day's sitting.

VERSAILLES, July 10.—In the assembly yesterday the message of President MacMahon, of which notice was given yesterday, was presented and read by Gen. De Clancy, minister of war: When you, by the law of November 20 last, delivered the executive power into my hands for seven years, you intended to afford to the public interest that security which previous institutions are powerless to give.
